## FOR IMMEDIATE RELEASE

### **Local Solar Company Helps offset embezzlement by Donating Two Solar Systems**

July 22 – FOR IMMEDIATE RELEASE

Energy Saving Pros, Sacramento's Only *wholesale solar direct to the public* company is proud to announce they've raised almost \$20,000 for Del Oro Jr Golden Eagles Youth Football and Cheer(DOJGE) by donating two solar systems that were purchased last week at their fundraising auction. "Energy Saving Pro's has been absolutely fantastic to work with and their very kind donations couldn't have come at a better time," shared organization president, Kristine Taylor. "This is almost the full amount lost through the embezzlement scandal," she added.

As reported in numerous media outlets, Clara Dillard, the former DO Junior Golden Eagle President was charged with embezzlement of \$20,000 from the youth football and cheer program during her 2013 term. She used the funds to take trips to Disneyland, Oregon, Washington and the Bay Area, the sheriff's office reported. "We saw a need and felt it was our responsibility to help out DOJGE program during this challenging time," shared Shad Derifield, Energy Saving Pro's Chairman, and Chief Operating Officer.

Energy Saving Pros is committed to our community and to our local sports. They're based in Loomis, California. Offering a 'wholesale solar direct to the public' model, they pass along their bulk buying power savings directly to municipalities, agricultural producers, business owners and homeowners.
